

Ways of a Mystery School for Spiritual Healing and Personal Evolution

∞ Training in the Healing Way Method, 2009 Class ∞

You are invited to apply for the 2009 Training in the Healing Way Method. This is a 100-hour, intensive course taught over four extended weekends of three days each: February 19 to 22, May 14 to 17, August 13 to 16, November 12 to 15.

Whether taking the workshop for professional or personal use, those who attend report being empowered to more fully live their life's true purpose, accelerate personal transformation, as well as develop and expand their spiritual and intuitive gifts.

“Making the decision to take the Healing Way Method class has been one of the most positive life changing things I have ever done. I have grown as a person, deepened my spiritual connection to Source and made valued friendships. Now, as a Healing Way Method practitioner... I see myself using these skills to aid my self and others for the rest of my life.” Judy M.

The Healing Way Method is about spiritual path work. It is a system for spiritual development and personal evolution as reflected in your desire, or your client's desire for growth and change. In attending you have the opportunity to learn a structured set of protocols designed to guide a person through their own self-directed transformation processes. The Healing Way Method incorporates energy based methods as well as the ancient mystery-knowledge of energy and Spirit.

“The training for Healing Way Method is a special mixture of learning and accelerated personal healing... learning how we humans are wired, about our conscious and subconscious interactions... about our energy fields and how to protect and manage our energy flow... about the many unseen beings who inhabit the same energy space we do and how to tell if they are helpful or harmful. The accelerated healing happens when we're doing Healing Way Method sessions with other trainees in an atmosphere of divine support...” Jari S.

By participating, plan to be challenged in ways you may not anticipate. At the same time, you will also be able to:

“Before taking the Healing Way Method training, I hosted, over a two year period, two full classes of Healing Way students at my lodge where the training took place. I was so impressed with the dramatic and positive changes I witnessed in the people who took the course; I decided to take the course myself the following year. I was not disappointed! Learning the Healing Way Method has changed my life significantly at so many levels... It is the most effective personal development and healing tool I have experienced, and I’ve seen a lot. I am truly grateful for this work.”
Mike R.

The Healing Way Method training is the product of collaboration between William Phipps, M.S.; Karen Kuenning, M.S., LPC, and Spirit.

Once a part of the traditional mental health system, William (Bill) now shoulders his portion of this work solely as an ordained minister, ordained specifically for this kind of work in 1995 under the auspices of the late Reverend, Dr. William Baldwin and his wife, Reverend Dr. Judith Baldwin, founders of the Center for Human Relations.

He graduated with a B.S. from Brigham Young University (1975) and a M.S. in counseling from the University of La Verne (1986). An unassuming teacher, he shares the accumulated wisdom of years of searching, learning and teaching in the areas of spiritual healing and growth. His path of spiritual preparation includes varied studies and experiences with indigenous healers and teachers, as well as spiritual Masters including India's Sri Vijayeshwari Devi, also known as Karunamayi, or Amma, the Hugging Mother.

Other training includes, among many things, Metaphor Therapy, Clinical Hypnosis, Eye Movement Desensitization and Reprocessing, Thought Field Therapy, Reiki, Spirit Releasement Therapy, Healing from the Body Level Up, Tapas Acupressure Technique, Guided Self-Healing, Soul Retrieval, Reconnection and Seemorg Matrix Work.

Karen comes to this work with a background as a Nationally Certified Mental Health Counselor and Licensed Professional Counselor. She has a B.S. in Psychology and Environmental Studies (1975) and a M.S. in counseling (1977). She completed a variety of post-graduate trainings including specialties in geriatrics, addictions, trauma and abuse.

Also an accomplished teacher, Karen shares Bill's enthusiasm and gratitude in bringing to the students her intuitive gifts, experience, knowledge, and wisdom learned along her own spiritual path. Over the years she has developed and facilitated numerous groups and classes including energy-based healing groups. Having witnessed that some of the most profound spiritual healing and growth is experienced within groups, she is especially excited to include this dimension in the training.

Her own spiritual journey began very young in life with a profound awe of the universe and life. That journey evolved to include numerous trainings, studies and mentoring with indigenous healers, spiritual teachers and Masters.

Other trainings include Eye Movement Desensitization and Reprocessing, Tapas Acupressure Technique, Thought Field Therapy, Emotional Freedom Technique, Neuro-Linguistic Programming, Healing from the Body Level Up, Guided Self-Healing and Seemorg Matrix Work; she is an advanced level practitioner in many.

Karen and Bill have often worked and trained together of over the past decade. Their combined knowledge and expertise in alternative healing is extensive. The synergy between them provides a unique, supportive and often humorous environment for student learning.
